***Reasons for allowance***

1. This communication is in response to applicant's 12/16/2005 amendment in the application of Nierhaus et al. for the "Method for background noise reduction and performance improvement in voice conferencing over packetized" filed 09/26/2001. The proposed amendment to the claims, and response have been entered and made of record. Claims 3, 11-13, 20 have been canceled per Applicant's request, and claims 1, 10, 18 have been amended. The claims have been amended to include the allowable subject matter set forth in the office action mailed on 09/16/2005.

2. Claims 1, 2, 4-10, 14-19, 21-25 are allowable as evident by applicant's amendment (Claims are renumbered as 1-20 respectively).

3. The following is an examiner's statement of reasons for allowance: The instant application is deemed to be directed to a nonobvious improvement over the invention patented in closest prior arts of record. The improvement comprises the step wherein combining determined prominent inputs into a second output stream for an originating participant of a prominent input of the determined number of prominent inputs, the second output stream not including the originating participant's input; determining a number of prominent inputs from the received inputs, the inputs being determined as prominent based upon a characteristic including at least one of loudness, signal strength, clarity, and prominence history, as specifically recited in the claims.
